

KDK slanders

October 26, 2016

A large number of anti ISIS accounts are frequently suspended by [@Twitter](#), as it can be seen on the HT [#OpSaveAnonHunters](#).

Why ? It's obviously difficult to understand what's happening. Despite they might be a few cases of disrespectful attitude, harassment, SPAM, or copyright infringement, the very great majority of these accounts are only fighting ISIS, reporting their accounts, tweeting some news about the on going conflicts in Syria and Irak or the terrorist threats in other countries. Their TL don't show any TOS violations. So what ?

Defective automated algorithms, fake abuse reports from ISIS supporters, friendly fires because of mistakenly listed accounts, reports from intolerant groups who dislike people because of a different religion or opinion. All assumptions are open, but none can say what's really going on.

None, except the "Katiba des Kuffars" a french group also known as [#KDK](#) or [@KD_Kuffars](#). When one of their accounts get suspended, they accuse their mates of being responsible for it. Why ? Because they used to be partner of an international group [@CtrlSec](#) . But it's no longer the case and the split has left resentments among some members. And if there are disenssions, guess what, then the adverse party is obviously responsible for any mishappening that may occur. Nope ?

They already accused us countless times for their previous suspensions. Most of the time, it was done in DM

Cela paraît invraisemblable, que le compte d'info @NewsKdk_Arabe_ soit autant ciblé 6x par la jalousie l'hypocrisie et l'ignorance!

Incredible that our news account is targeted so hard, 6 times, only because of jealousy, hypocrisy, ignorance

From Nath, same day

For the record, we used to support the reinstatement of their suspended accounts in the past, as we do for all other ordinary anti ISIS accounts

Until they started to accuse us of being responsible for their suspensions

Bonjour [REDACTED]

J espère que tu vas bien tout d abord.
Juste pour te dire que nous avons identifié le compte à l origine des différentes suspensions de KDK News en version arabe.
Et effectivement ce n est pas Mikro. C est un US fanatique qui prend toute rédaction en arabe comme étant du Daesh.
Autant pour moi.
Au plaisir d échanger a l occasion.
Bonne journée.

11:24

Rec : Hello. I hope you're doing all right. Just to let you know that we have identified the account responsible for the several suspensions of our arabic news account. And indeed, it's not Mikro. It's a US bigot who consider any arabic is Daesh. My mistake. Looking forward to hear from you.

Have a good day.

The same happened with the previous group they belonged to, « [KatibaDesNarvalos](#) », #KDN or [@KatNary](#) who were also blamed for any incident of this type in the past. But one at a time, our turn, unless there's a general plot against them ? which is a scenario that is often advanced by them too.

Message sent in arabic to the saudi hunters, knowingly in a picture to avoid possible translator tools. The team targeted in this message was KDN (KatibaDes Narvalos).
« We need your help. A team accuses us of being racists and attacks us. They prevents us to do our work. This group also threatens our members. They spend all their time to harass us and they are stealing our work. Our only war is against terrorism. Would they let us work in peace.

If you're not yet convinced of the level of hypocrisy of this team, you may have a look at the TL of the sock accounts they used to harass KDN . [@LeeJunFan](#) and [@yaunhadith](#) gives a good overview

And now, here is the detail of their latest attack. It's nothing new. They blamed us countless times in our DM in the past months for other suspensions as shown in the above screenshots but this time it went public. And it gives a good overview of the violence of the attacks they

are running.

That day, their arabic news account [@Arabic_KDKNews](#) was suspended once again. As well as the account of one of their members too. [@Umm_RockNRoll.](#), who is notably known for her aggressive behaviour and repeated insults to any person who disagrees with her.

Then this person started a rant on @twitter from her other account [@Loyalty_Honor_](#) and accused Mikro once again to be responsible for their suspensions (despite they acknowledged it was not his fault when the account was previously suspended.)

Did all these accounts behave the same ? Blaming X or Y ? No. They simply asked for the support of the other hunters to get their account reinstated. It's called **solidarity**.

To conclude, our intention is simply to inform, not to attack them. They can do their own business, we just don't care. But we were countless times asked why [@Ctrlsec](#) refuses to work with this team or why we don't support them .

We think this clarification was necessary.
